- Soufiane Ben Moussa, Chief Technology Officer, House of Commons of Canada, *The ICT Strategic Plan execution toolbox*, presentation at the Regional Workshop “The Impact of New Technologies in the Transformation of the Legislative Branch”, Bridgetown, Barbados, 1 June 2012 <[http://www.ictparliament.org/sites/default/files/panel12\\_soufiane\\_benmoussa\\_tools\\_for\\_execution.pdf](http://www.ictparliament.org/sites/default/files/panel12_soufiane_benmoussa_tools_for_execution.pdf)>
- Soufiane Ben Moussa, Chief Technology Officer, House of Commons of Canada, *Open Documents + Protocols for Greater Transparency*, presentation at the International Meeting “Achieving Greater Transparency through the Use of Open Document Standards”, Washington D.C., 27- 29 February 2012

# Boxes

- A.1** Parliaments and chambers that participated in the 2012 survey
- 1.1** Comment by a respondent to the 2012 Survey on smart phones to communicate with members
- 1.2** Comment by a respondent to the 2012 Survey on the use of ICT in organizations
- 1.3** Comment by a respondent to the 2012 on ICT strategic planning
- 1.4** Comment by a respondent to the 2012 Survey on ICT training needs for members
- 2.1** Comment by a respondent to the 2012 Survey on communication with citizens through websites and social platforms
- 2.2** John Pullinger, Librarian and Director General, Information Services, House of Commons of the United Kingdom. Extracts from *Citizen Engagement and Access to Information*, presentation at the Regional Workshop “The Impact of New Technologies in the Transformation of the Legislative Branch: From Awareness, to Planning to Action”
- 2.3** Comment by a participant in the Regional Workshop “The Impact of New Technologies in the Transformation of the Legislative Branch: From Awareness, to Planning to Action” on the efforts made by the parliament to involve citizens
- 2.4** The PMO’s “Declaration on Parliamentary Openness”, May 2012. Contribution to the *World e-Parliament Report 2012* by the National Democratic Institute
- 2.5** Comment by a respondent to the 2012 Survey on communication with citizens through TV and audio-video streaming
- 2.6** Comment by a respondent to the 2012 Survey on the use of Twitter to engage citizens in the political process
- 2.7** Comment by a respondent to the 2012 Survey on making audio and video records available to others for broadcasting and webcasting
- 2.8** HouseLive.gov, the video streaming service of the U.S. House of Representatives. Contribution to the *World e-Parliament Report 2012* by the Office of the Clerk of the House of Representatives of the United States of America
- 2.9** Comment by a respondent to the 2012 Survey on efforts made to engaging citizens through ICT and specific on line applications
- 2.10** Comment by a respondent to the 2012 Survey on citizens not being familiar with ICT
- 4.1** Comment by a respondent to the 2012 Survey on the development of a Parliamentary and Legislative Management Information system
- 4.2** Geert Hamilton, Secretary General of the Senate of The Netherlands. Extracts from *The Dutch Senate: a paperless Parliament*, Communication to the Association of Secretaries General of Parliaments, Bern Session, October 2011

- 
- 4.3 Comments by respondents to the 2012 Survey on ICT training for members and their staff
  - 5.1 Comment by a respondent to the 2012 Survey on good practices in managing parliamentary documentation
  - 5.2 Comment by a respondent to the 2012 Survey on conversion to digital format of analogue verbatim recordings
  - 5.3 Soufiane Ben Moussa, Chief Technology Officer, House of Commons of Canada. Extracts from *Open Documents + Protocols for Greater Transparency*, presentation at the International Meeting “Achieving Greater Transparency through the Use of Open Document Standards”, Washington D.C., 27- 29 February 2012
  - 5.4 Extract from *Legislative XML: Principles and Technical Tools*, Discussion paper No. IDB-DP-222, Institution for Development (IFD), Inter-American Development Bank, May 2012
  - 5.5 Standards for the Electronic Posting of House and Committee Documents & Data, approved by the Committee on House Administration on December 16, 2011. Contribution to the *World e-Parliament Report 2012* by the Office of the Clerk of the House of Representatives of the United States of America
  - 5.6 The Bungeni Editor. Contribution to the *World e-Parliament Report 2012* by the Africa i-Parliaments Action Plan initiative
  - 5.7 Comment by a respondent to the 2012 Survey on digital archiving
  - 5.8 The Bungeni Parliamentary and Legislative Information System, Contribution to the *World e-Parliament Report 2012* by the Africa i-Parliaments Action Plan initiative
  - 5.9 Comment by a respondent to the 2012 Survey on the implementation of the Bungeni Parliamentary and Legislative Information System
  - 5.10 International Meeting “Achieving Greater Transparency in Legislatures through the Use of Open Document Standards”. Meeting Summary
  - 5.11 The e-Parliament program at the European Parliament - Update on the current status of activities. Contribution to the *World e-Parliament Report 2012* by the Directorate General for Innovation and Technological Support (DG ITEC) of the European Parliament
  - 6.1 Comment by a respondent to the 2012 Survey on access policy for library research products
  - 6.2 Comment by a respondent to the 2012 Survey on automation of library processes and services
  - 6.3 Comment by a respondent to the 2012 Survey on storage of documents and literature
  - 6.4 Comment by a respondent to the 2012 Survey on moving towards automation of library management and services
  - 6.5 Comment by a respondent to the 2012 Survey on the importance of adopting international standards in the library
  - 7.1 Comment by a respondent to the 2012 Survey on commercial vs. open applications for automation of parliamentary businesses

- 7.2** Joan Miller, Director of Parliamentary ICT, UK Parliament. Extract from *Electronic papers in the UK Parliament*, presentation at the International Meeting “Achieving Greater Transparency through the Use of Open Document Standards”, Washington D.C., 27-29 February 2012
- 7.3** Comment by a respondent to the 2012 Survey on IT staffing in the parliament
- 7.4** Comment by a respondent to the 2012 Survey on good practices in training end users
- 7.5** Comment by a respondent to the 2012 Survey on lack of staff training
- 8.1** Comment by a respondent to the 2012 Survey on priorities in ICT planning for the next two years
- 8.2** Philippe Schwab, Secretary of the Council of States of Switzerland. Extract from *Strategic plan of the parliamentary service of the Swiss Parliament for 2012–16*, Communication at the meeting of the Association of Secretaries General of Parliaments (ASGP), Session 2012, Kampala, Uganda
- 8.3** Comment by a respondent to the 2012 Survey on good practices and lessons learnt for ICT strategic planning
- 8.4** Soufiane Ben Moussa, Chief Technology Officer, House of Commons of Canada. Extracts from *The ICT Strategic Plan execution toolbox*, presentation at the Regional Workshop “The Impact of New Technologies in the Transformation of the Legislative Branch”, Bridgetown, Barbados, 1 June 2012
- 8.5** Comment by a respondent to the 2012 Survey on good practices for ICT funding
- 8.6** Comment by a respondent to the 2012 Survey on cooperation on ICT strategic planning
- 8.7** ICT priorities at the regional level identified by participants attending the Regional Workshop “The Impact of New Technologies in the Transformation of the Legislative Branch: From Awareness, to Planning, to Action”, Bridgetown, Barbados, 30 May to 1 June 2012
- 8.8** Map showing the level of inter-parliamentary cooperation which occurred since the release of the *World e-Parliament Report 2010*
- 9.1** Survey findings relevant to the values of parliamentary democracy
- 10.1** Comment by a respondent to the 2012 Survey on benefits of collaboration and knowledge sharing
- 10.2** Comment by a respondent to the 2012 Survey on the support needed from other parliaments and organizations

# Figures

- A.1** Countries whose parliament or chamber(s) participated in the survey
- A.2** Number of seats in national chambers that responded or did not respond to the survey
- A.3** Percentage of all members of parliaments world-wide whose chambers responded or did not respond to the survey
- 1.1** Growth in cellular, mobile-broadband, fixed-telephone, fixed-broadband subscriptions and Internet users 2001 – 2011 per 100 inhabitants
- 1.2** Growth in Facebook users 2004 - 2012
- 1.3** Web page of open data web services of the Federal Assembly of the Swiss Parliament
- 1.4** Most important improvements in the work of parliament that have been made possible by ICT in the past two years by income level
- 1.5** Parliament's most important objectives for ICT in the next two years
- 1.6** Most useful technologies introduced in the past two years to improve the work of parliament
- 1.7** Parliament's biggest challenges in using ICT effectively
- 2.1** Use of e-mail and websites by member and committees to communicate with citizens
- 2.2** Purposes for which members use websites
- 2.3** Purposes for which committees use websites
- 2.4** Other methods of communication with citizens used by parliaments comparison of all respondents to the 2012 and 2009 surveys
- 2.5** Other methods of communication with citizens used or being planned/considered by parliaments, by income level groups
- 2.6** Use of any form of social media, by region
- 2.7** Other methods of communication with citizens being *planned or considered* by parliaments in 2012 and 2009
- 2.8** Other methods of communication with citizens being used or planned by parliaments in 2012
- 2.9** Mobile devices supported by specific applications developed by parliaments
- 2.10** Purposes of the specific mobile applications developed by parliaments
- 2.11** Methods used to communicate with young people
- 2.12** Most important objectives in using ICT-based methods of communication
- 2.13** Use of special tools for organizing citizens' comments
- 2.14** Trends in citizen use of technology-based communication methods
- 2.15** Challenges in using communication technologies

- 
- 3.1 Responsibility for setting website goals
  - 3.2 Activities that take place for the management of parliamentary websites
  - 3.3 Written policies for the website by areas
  - 3.4 General information about parliament on the website, sorted by percentage
  - 3.5 General information about parliament on the website, sorted by category
  - 3.6 Information about legislation, budget, and oversight activities on the website of the parliament, by percentage
  - 3.7 Average percentage of parliaments having the items in each of the categories of legislation, budget, and oversight
  - 3.8 Average percentage of parliaments having the items in each of the categories of legislation, budget, and oversight by year
  - 3.9 Timeliness of plenary and committee agendas on the website of the parliament
  - 3.10 Timeliness of bills and plenary proceedings on the website of the parliament
  - 3.11 Percentage of parliaments that have various items linked to proposed legislation, by year
  - 3.12 Tools for finding and viewing information on websites of parliaments, by year
  - 3.13 Tools and guidelines for the design of websites
  - 3.14 Design elements available to users
  - 3.15 Number of official languages and number of languages in which the website is available
  - 3.16 Number of official languages and number of languages in which the website is available, a cross analyses
  - 3.17 Information and services available to members and staff in intranets
    - 4.1 Items provided by parliaments to members for personal use
    - 4.2 Wireless access to the Internet in the parliament
    - 4.3 Members, committees, and departments connected to the LAN
    - 4.4 Parliamentary functions, activities and services supported by ICT applications
    - 4.5 Functions and services supported by ICT applications
    - 4.6 Equipment provided by the parliament in the plenary room
    - 4.7 Devices owned by members that can be used in the plenary room
    - 4.8 Services available in the plenary room
    - 4.9 Use of large displays in plenary and committee rooms
    - 4.10 Purposes for using large displays in plenary and committee rooms
    - 4.11 Use of electronic voting systems in the plenary room
    - 4.12 Methods of authentication for electronic voting
    - 4.13 Methods used for preparing verbatim reports of plenary sessions
    - 4.14 Number of members of parliament lacking specific ICT services
    - 5.1 Parliaments with systems for managing the text of bills, by income groups
    - 5.2 Features of document management systems for bills

- 5.3 Use of XML for bills by parliaments with a document management system for bills
- 5.4 Use of XML for bills by 2007:2012 comparison group
- 5.5 Use of XML for bills by 2009:2012 comparison group
- 5.6 DMS for plenary and committee documents
- 5.7 DMS for plenary and committee documents by 2009:2012 comparison group
- 5.8 DMS for plenary and committee documents, all respondents, all surveys
- 5.9 XML for plenary and committee documents in parliaments with a DMS
- 5.10 XML for all document types by year
- 5.11 Purposes for using XML
- 5.12 Challenges in using XML
- 6.1 Parliaments that have a library
- 6.2 Libraries connected to an intranet, by income groups
- 6.3 Use of automated systems for managing library resources, by income groups
- 6.4 Capabilities of automated systems for managing library resources
- 6.5 Documents maintained in the archive in digital format
- 6.6 Newest communication tools being used by libraries
- 6.7 e-Services offered by libraries
- 6.8 Services available to the public
- 6.9 Library's contributions to the website of the parliament
- 6.10 Staff support for ICT in libraries
- 6.11 Libraries that participate in networks, by income groups
- 6.12 Libraries that participate in formal networks
- 6.13 Global scores for digital capacities
- 6.14 Global scores for digital services
- 7.1 General ICT services available in the parliament
- 7.2 Adequacy of Internet connection
- 7.3 Wireless access to Internet
- 7.4 Use of commercial and open source software
- 7.5 Service level agreements
- 7.6 Parliamentary functions supported by ICT
- 7.7 Categories of applications
- 7.8 ICT staff, 2007:2012 comparison group
- 7.9 Functions performed by internal ICT staff and contractors
- 7.10 Training provided for ICT staff, by year
- 7.11 Training priorities
- 7.12 Training/orientation for members and non-ICT staff

- 
- 8.1 Establishment of goals and objectives for ICT in parliament
  - 8.2 Source of ideas and proposals for ICT goals and projects
  - 8.3 Level of engagement of political leaders of the parliament in ICT
  - 8.4 Parliaments that have a specially designated committee or group to provide direction and oversight for the use of ICT in parliament
  - 8.5 Chair of the specially designated committee or group on ICT
  - 8.6 Parliaments that have a written vision statement for ICT
  - 8.7 Parliaments that use project management methodology
  - 8.8 ICT budget as a percentage of the entire budget of the parliament
  - 8.9 How ICT is funded
  - 9.1 Average total e-parliament scores in each category for all respondents by year
  - 9.2 Average total e-parliament scores by each category for the 2009:2012 comparison group
  - 9.3 Average total e-parliament scores by income groups
